Performance Initiatives Undertaken 05/25/2022-05/24/2023

During the reporting period, the Unit participated in three job and career fairs:

- 5/26/2022 – Representatives from the Unit attended the Lee Hecht Harrison National Virtual Career Fair, which is designed for recruiting of upper-level management positions.
- 10/13/2022 – Representatives from the Unit attended the Ensign College Career Fair, for students seeking internships, part-time, and full-time positions
- 9/17/2022 – Representatives from the Unit attended the Utah College Media Career and Internship Fair at Salt Lake Community College, which provides educational content for students considering careers in broadcasting and helps place students with internships and job opportunities.

During the reporting period, three (3) students participated in the Unit's internship program: one from Brigham Young University, one from Ensign College, and one from Utah State University. Each intern worked with KSL TV Studio 5 from 6/6/2022 to 8/17/2022, 9/12/2022-12/14/2022, and 1/9/2023-5/3/2023, respectively. The most recent intern with KSL TV Studio 5 is now continuing to work with the Unit in an on-call capacity. The internship program allows students majoring in journalism, broadcast communications or related fields to receive academic credit while acquiring skills needed for employment in the broadcast industry.

In addition to these three interns, the Unit hosted two students from the University of Oklahoma for a weeklong educational experience at the KSL Broadcast House from March 13th, 2023 to March 17th, 2023. Throughout the course of this educational experience, these students had the opportunity to extend their learning and skills beyond the classroom, including:

- Improving basic broadcast writing, production, research, packaging, and interviewing skills and techniques
- Observing the production of live broadcasting
- Learning and observing all aspects of the daily operations of the team
- Interacting professionally with Company employees while observing and learning what they do on a daily basis
- Developing skills for writing, research, and social media for production

After an extended period without in-person tours of the KSL Broadcast House due to the COVID-19 pandemic, the unit began hosting tours again for groups of students and radio industry professionals:

- On January 30th, 2023, Unit hosted a tour of 15 Production students and Advisors from Salt Lake Community College.
- On January 31st, 2023, Unit hosted a second group of 15 Production students and Advisors from Salt Lake Community College.
- On February 28th, 2023, Unit hosted a tour of 30 students from Ensign College. These students were from a variety of areas of study including marketing, social media, digital content as well as general business majors.
- On March 15th, 2023, Unit hosted a tour of 30 students from Utah Technical College and Southern Utah University. This was a combined group of students studying broadcast production.
- On March 22nd, 2023, Unit hosted a small tour of radio industry professionals from Mexico City.

- On May 17th, 2023, Unit hosted a tour of 15 members of a local community youth group to educate them about careers in broadcasting.

On November 15th, 2022, the Unit's President and SVP of HR participated in a Human Resources and Diversity, Equity and Inclusion Forum hosted by the National Association of Broadcasters.

In December of 2021, the Unit partnered with Franklin Covey to provide development resources for all employees working 20+ hours per week, called the Franklin Covey All-Access Pass. Unit has continued this partnership and continues to provide the All-Access Pass to new employees as they are hired. The Franklin Covey resource provides many on-demand tools for personal development, including articles, videos, and self-guided activities. From February through October 2022, employees from across the company participated in an Unconscious Bias training program, which included a live company-wide kick-off event in February, three hour-long online modules, and twelve biweekly, 30-minute virtual group discussions. Beginning in January 2023, Unit has been holding quarterly, condensed iterations of the Unconscious Bias program, which last six weeks and are assigned to newly hired employees and open for all employees to attend, if desired.

To promote understanding of, and compliance with, our policy of equal opportunity employment, all new employees hired have been required to complete two trainings, Sexual Harassment Prevention and Discrimination and Harassment Prevention, as part of their onboarding process. In January 2023, Unit switched providers for this training in order to provide a more robust and thorough training experience for employees.

Staff from various functions within the Unit have visited various schools and civic groups, sharing their broadcasting experiences and participating in events to further understanding of broadcasting professions.

- On November 18th, 2022, the SVP of Engineering, who serves on the Board of Salt Lake Community College – Center for Arts and Media, led a discussion with 12 board members about developing curriculum to prepare students for the workforce in the Broadcast industry.
- In January 2023, an on-air host for KSL TV spoke to a class of 15 film students about working in the media industry.
- On February 14th, 2023, the Operations Load for KSL NewsRadio spoke to a broadcasting class of 12 at Weber State University about how to produce political/news talk shows including tips on conducting research, booking guests, and choosing discussion topics.
- On February 15th, 2023, the Assistant News Director for KSL NewsRadio spoke to a class of 25 students at Weber State University about radio journalism, career paths, and job opportunities.
- On February 15th, 2023, a News Producer for KSL TV spoke to a class of 30 students at Salt Lake Community College about careers in broadcasting.
- On February 16th, 2023, two news directors for KSL TV spoke to a class of 30 students at Salt Lake Community College about careers in broadcasting.
- On February 23rd, 2023, the Assistant News Director for KSL NewsRadio spoke to two classes at Utah State University (approximately 50 students total) about radio journalism (including the difference between commercial and public), career paths, and job opportunities.
- In March 2023, an on-air host for KSL TV spoke to 10 members of a local community youth group about careers in broadcasting, the importance of taking educational and career opportunities seriously, and the value of internships.
- On April 5th, 2023, the Assistant News Director for KSL NewsRadio spoke to 25 high school students on the Attorney General's Youth Advisory Board about bias in the media and career paths in broadcasting.
- On April 11th, 2023, the Assistant News Director for KSL NewsRadio spoke to a class of 20 students at University of Utah about writing for web, turning audio stories into written stories, digital best practices, career paths, and job opportunities.
- On April 24th, 2023, a Reporter for KSL TV presented via video call to a group of 20 students from Aux Sable Middle School in Joliet Illinois sharing why she got into journalism, challenges of the industry, favorite stories, what makes a good journalist, and how to prepare for a career in journalism.

In an effort to equip internal employees with knowledge and resources to develop their skills and advance in their careers, the Unit produced a monthly series of development seminars starting in January 2021. Seminars focused on topics like professional skills development and effective goalsetting.

During the reporting period, 49 employees from the Unit participated in a Company-wide Leadership Development Program spanning the Company's six business units. This program included a mentoring component, participation in a 360 Feedback Survey, and quarterly seminars. The Program track began in January 2023 and included 24 employees participating as mentees and 25 as mentors. The Program gave participants an opportunity to develop professional relationships, skills and attributes that will help them progress in their career. The program is ongoing and will continue throughout the remainder of 2023.
